Pen to plate

This term our Jarjums have been extremely engaged in cooking an array of foods with our chicken eggs. Each morning the Jarjums come to preschool very eager to see how many eggs our chickens have laid overnight, we are currently averaging about 3 eggs per day.

So far, we have made omelettes, boiled eggs, scrambled eggs on toast, and veggie slice. Next week, the children have opted to make pasta. Throughout these learning experiences, the jarjums are drawing on prior knowledge to brainstorm what foods our eggs can be used for to create and graphing their ideas to vote on their preferences. These cooking experiences have engaged the children in meaningful conversations about food that animals and plants give us and the benefits of these nutritional foods.

That's a wrap for 'Kindy O' 2022

Last Tuesday the Jarjums attended their third and final kindy orientation for 2023. Educators noticed a sense of comfortability as the children explored the kindergarten rooms and engaged in activities with Miss Reilly. Throughout the rest of the term the children will be having additional transition days where we attend the kindergarten spaces and integrate with the current kindergarten children. This will strengthen the children's knowledge of routines and build relationships with the children already attending Casino West Public School.

Sustainability vertical garden

We are well underway in creating our sustainability vertical garden. The children have selected various plants they would like to grow and assisted in potting and caring for the seedlings. Some seedlings have already begun to sprout. We thank our families for your generous donations and look forward to you seeing the garden in person at our end of year celebrations.
