A Comemorar Harmonia (CELEBRATING HARMONY)

Last week we celebrated Harmony Day. “The message of Harmony Day is social cohesion and racial harmony and is expressed through community participation, inclusiveness, the celebration of diversity, respect, belonging, and primarily the unity and togetherness of the numerous nationalities residing within the community.” We are fortunate to have a lovely family from Brazil at our Preschool this year, which is why our chosen focus country was Brazil for Harmony Day. Throughout the year we have been learning some Portuguese words and songs during our day and building a connection/understanding of the country of Brazil. On Friday at the Harmony Day assembly, the preschool children performed the Portuguese version of ‘baby Shark’ for the children and parents of Casino West Public School. Following this, we returned to preschool where one of our Mums Marina did some traditional Brazilian cooking with the children. ***Thank you so much to Marina for sharing your time with us and teaching us some more about your country.***

Exploring colour

This term our Burbi children have been exploring the concept of colour. We have been engaging in many experiences looking at the concept of colour change, identifying primary and secondary colours and exploring these new concepts through hands on learning.

Maths through play

Our core business is play!!! As educators, we are guided by the children's interests and extend on these through intentional teaching opportunities. Maths is everywhere and is constantly explored through play-based learning experiences. Here is an example of how a simple maths concept can be a focus of a spontaneous learning experience. Faviola was playing at the playdough table and was using her fine motor skills to mould the playdough into small balls, and lines. Independently, Faviola organised the lines and balls into an 'AB pattern', ball, line, ball, line etc. Mrs Clark then fostered this interest by guiding and questioning Faviola to extend her thinking and learning about how pattern systems work.
